INDORSE PLAYGROUNDS

Academy of Medicine and Surgery Adopt Resolutions to Aid Movement. Acidemy of Medicine and Surgery Adopt Resolutions to Aid Movement.

At the regular monthly meeting held Tuesday night, the Richmond Academy of Medicine and Surgery adopted resolutions unanimously indorsing the playgrounds movement.

The resolutions set forth the fact that the children of the city are utterly deprived of a pince for outdoor exercise which is essential for their proper development. The doctors hold that as a result of the establishment of the playgrounds all classes of children in the city will be happier and more healthy and that they will make better men and women on account of it.

The resolutions also provide for the appointment of a committee to lend all possible aid and encouragement to the project. The secretary was instructed to forward a copy of the resolutions to the special joint Committee on Playgrounds of the City Council, to the president of the Civic Improvement League and the daily papers.
